

Clerks Report**1 King George Field.**

Roy has done some reseeded of the heavily used areas.

I am still awaiting replies from the Cricketers & Footballers on whether their funding bodies have any special requirements in a long term lease. I believe that we should work from their requirements to the lease.

Safety Inspection has taken place. I am awaiting the report.

Lappsett has been and had a look at the equipment. I have put their comments below.

Paul,

Sorry I missed you the other day. I did as you asked, and visited the site to look at the two issues you raised:

The damaged boom

The ongoing maintenance

I really can't comment as to why the badly burnt boom was not changed at the same time as the other parts. It seems to be holding out ok but its structural integrity must surely be weakened given the depth of the burning. I would personally look to change the boom as soon as possible.

In regard to the maintenance, I can not see what more you can do. You clearly have a maintenance regime which includes looking after the wooden elements. I did notice certain damage to one post but I doubt it would affect the structural integrity. It is more aesthetic and should be smoothed down to avoid splinters.

The maintenance of the mobile springer is a different storey, it clearly shows signs of decay. I would remove the bodies, remove any damaged or decayed wood, fill where necessary and re varnish .

I did carry out a test of some of the wooden uprights and the ones I did check are showing signs of rotting at the base. This is evident by the soft wet wood. This point will need to be monitored as it will only get worse with time and maybe you should incorporate it into your maintenance regime.

I trust this helps but if you need any further information or assistance please do not hesitate to contact me

Regards

Kevin

1.1 Sand Pit.

I have arranged with Roy , that he & I will remove the sand pit on Tuesday 18th may.

1.2 Hard Standing for the roller.

The roller will need to be moved from its existing resting place.

Clerks Report

Ideally we need a new concrete hard-standing for the powered roller and the heavy roller more or less alongside the SCC.

Gene what size of job is it?.

2 Pre- School - Little Owls.

2.1 Lease

See email forwarded on 6/5/10.

3 Insurance.

The insurance has been transferred to Aviva.
Do we want to sign up for 3 years and get a discount?

.

4 Finance

The Return for the audit Commission has been done. See separate document.
The document for the Audit Commission does not include the actual figures for 2008-9 and 2009-10.
